

With great excitement, we are announcing a new stewardship program at ULC called:

"Give ULC a High Five"

What is more positive and supportive than giving someone a high five? Friends and family who love and care for each other often show their warm feelings by giving high fives to each other. Well, why not give a high five to ULC? If you love and support ULC and the ministry we share together, why not give ULC a high five to say that this is a welcome place, a faithful ministry, a household of the Lord and his family?

What we are asking is that everyone who loves ULC and who thinks of ULC as their church family, give \$5 more every week than they are currently giving. It doesn't matter what your level of giving is right now, \$5 more every week can really make a difference. This program is designed to positively demonstrate to all ULC members and friends the power of \$5. It is really the simplest of ideas.

For example, if 50 ULC families gave \$5 more a week for one year, that would become \$13,000! If 100 ULC families gave \$5 more a week for one year, that would become \$26,000. If 150 ULC families gave \$5 more a week for one year, that would become \$39,000. Since we have a total of 279 families who contributed to ULC last year, it is easy to begin to see the potential power of \$5.

There is one small favor we ask of you. If you can make a note that says "high five" on your extra \$5 a week, that would be amazing because it would allow us to track how many high fives ULC is receiving. Then we will be able to give you positive updates during the year, showing the impact of all these high fives on our ministry. Too often we talk of shortfalls. Why not talk about high fives instead!
